Did you know...

Light travels faster than sound. This is why some people appear bright until you hear them speak!

A TV can insult your intelligence, but nothing rubs it in like a computer!

There are only two types of computers in the world; those that waste your precious time and those that waste it faster.

People flock to Barton Springs to start the new year right!

For 35 years the “Polar Bear Swim” on New Year’s Day has been a tradition for Austinites. People bring food and enjoy a cold dip in the 68 degree water.

I have always enjoyed the pool and an

invigorating swim on a cold day.

Around Town

Sherri swimming in Barton Springs — even the life-guards know it is warmer in the water than on the outside ☺

“The world as we have created it is a process of our thinking. It cannot be changed without changing our thinking.”

Inconclusive Travel plans for 2015:

I have been in many places, but I've never been in *Cahoots*. Apparently, you can't go alone you have to be in Cahoots with someone else.

I've also never been in *Cognito*. I hear no one recognizes you there.

I have, however, been in *Sane*. They don't have an airport; you have to be driven there. I have made several trips there, thanks to my friends, family and work.

I have also been in *Doubt*. That is a sad place to go and I try not to visit there too often.

I've been in *Flexible*, but only when it was very important to stand firm.

Sometimes I'm in *Capable* and I go there more often as I get older.

One of my favorite places to be is in *Suspense!* It really gets the adrenaline flowing and pumps up the old heart! As we age we need all the stimuli we can get.

I took a client to a handyman special. The place was great, and we couldn't understand why it was so cheap until we turned on the water main and water gushed from the ceiling. Dripping wet my client put a positive spin on the showing—"Nice house, it's even self-cleaning".
